

The Delta Kappa Gamma Society International  
The Pi State Educational Foundation

## STRENGTHENING YOUR GRANT APPLICATION

Consider the following things to make your application for funding to the Pi State Educational Foundation stronger:

- Does the project support literacy and learning?  
Remember there are many kinds of literacy. No grant is considered if it does not support literacy.
- Is the project educationally sound?
- Are the objectives of the project clearly-defined?
- Is it an original project? While we do support many similar projects, we are always looking for new initiatives.
- How many people will benefit from the project for the funds being requested?
- How many Chapter members will be involved in the project? (This does not mean that single-member projects will not be considered.)
- Did the applicant(s) seek other sources of funding, especially if the project is a costly one?
- What is the current availability of Foundation funds?
- How is Delta Kappa Gamma to be recognized?
